IDENTIFYING PARTS

4

USING THE BLUETOOTH EARPHONES

WARNING: Please use the DC5V/100mA charging cable provided, use of an unapproved cable may damage your headset.

DO not disassemble the unit, or remove the built-in battery. Doing so will damage your headset.

POWER ON:

Press and hold the Multifunction key, a blue light will flash indicating your earphones are on.

PAIRING MODE:

Press and hold the Multifunction key until a blue and red light flashes alternatively.

POWER OFF:

Press and hold the Multifunction key until a red light flashes and turns off.

PAIRING YOUR EARPHONES TO YOUR BLUETOOTH DEVICE:

1. Keep the distance between the headset and Bluetooth device within 1 meters of each other.
2. Press and hold the Multifunction key until blue and red lights flash alternatively, and the earphones have entered pairing mode.
3. Turn on the Bluetooth function of your device. The device will scan for Bluetooth devices.
4. Select the Volcano Rush Series Earphones from the devices listed. The device and the earphones should connect automatically.

NOTE: Some devices require a pin number, should your device prompt you for a pin number, please enter 0000. Should pairing take longer than 120 seconds, or the pairing mode lights stop flashing and go out, please retry steps 1 - 4 to pair your device.

DISCONNECTING THE HEADSET AND YOUR BLUETOOTH DEVICE:

1. Close the Bluetooth function on your device or press and hold the Multifunction key on the earphones until the red lights go off and the earphones are turned off.
2. Remove the earphones from the signal distance (10m).

5

USING THE BLUETOOTH EARPHONES

RECONNECTING THE PAIRED DEVICE TO YOUR EARPHONES:

1. Keep the distance between the headset and Bluetooth device within 1 meter.
2. Switch on the headset, it will enter pairing mode and the lights will flash.
3. Turn on the Bluetooth function of your device, the earphones will automatically reconnect.

NOTE: The earphones automatically remember the last Bluetooth device they were paired to.

ANSWER A CALL:

To answer an incoming call, press the Multifunction key once. The earphones will answer the call.

REJECT A CALL:

To reject an incoming call, press the Multifunction key twice in rapid succession, or use your mobile phone to reject the call.

HANG UP A CALL

To end a call, press the Multifunction key once or use your mobile phone to end the call.

REDIAL THE LAST NUMBER CALLED:

While in standby mode, double click the Multifunction key, the earphones will redial the last number dialled.

PLAY / PAUSE MUSIC:

Press the Multifunction key Button once to play or pause your music.

ADJUST THE VOLUME / SKIP TRACKS:

Press and hold the VOL + and VOL - buttons to skip through tracks on the playlist.

Press the VOL + and VOL - buttons once to adjust the playback volume of your music.

Battery/Charging & FAQ

BATTERY AND CHARGING:

1. Before charging, ensure the headset has been turned off. Plug the MICRO USB cable into the charging port of the earphones; plug the other side of the USB cable into a USB Charger or compatible USB port.
2. Your earphones will start charging, and a red indicator light will turn on, indicating the unit is charging.
3. Charging time takes approximately 1.5 – 2 hours. The indicator light will turn off once the unit is fully charged.

FAQ (Frequently asked questions)

1/ The earphones won't pair with your Bluetooth device?

Check that the earphones are in pairing mode or reconnection mode. Check that the Bluetooth search function on the device is enabled, and that the earphones are still displayed in the Bluetooth devices lists.

2/ Earphones won't turn on? Ensure that the earphones are fully charged.

3/ Can I change the battery for these earphones?

No. The battery is a built-in lithium battery and it is designed to recharge via Micro USB connection.

4/ Can I use the earphones while driving?

For safety reasons, we recommend that you do not use the earphones while driving.

5/ Earphones disconnect from the Bluetooth device, while the device is within range? Ensure that there is no metal or blockage between the earphones and Bluetooth device.

6/ No sound from the Bluetooth device after connection?

Ensure that your Bluetooth device's audio settings are on Bluetooth Audio Device for playback and that your device supports a A2DP profile. Please check the volume on the earphones.

7. Can't skip tracks? The software settings of your music APP may vary from some functions on the headphones. Please try to update the software on your media player.

ENVIRONMENTALLY FRIENDLY DISPOSAL

Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities. Contact your local government for information regarding the collection systems available.

If electrical appliances are disposed of in landfills or dumps, hazardous substances can leak into the ground water and get into the food chain, damaging your health and wellbeing.
