# Charging the speaker

1. Lift the waterproof USB cover located in the back of the unit
2. Connect the small end of the Micro USB charging cable to the Micro USB port located on the back of the speaker
3. Connect the USB end of the Micro USB charging cable to your computer's USB port or an AC adapter (charger not included)

## Using Bluetooth Wireless:

1. Press and hold the power button on the speaker. A tone will be heard and the LED indicator light will begin to flash blue quickly (located to the right of the power button)
2. The unit will automatically go into "Pairing Mode" when it is powered ON.
3. Go into your Bluetooth device settings menu and search for "TYPHOON".
4. After the unit has paired and connected, it will re-connect automatically when the unit is powered ON and the device is in range.
5. After successful pairing, the LED indicator light will flash slowly

**Note: if you would like to connect the speaker to another device, which is within 10 meters, you must un-pair the speaker from the currently paired device.**

## How to make or receive calls on your speaker:

- After pairing the phone with speaker, you can receive or make calls on your TYPHOON speaker
- Press and hold the Next button to Answer/End calls

## Playing Music

- To enjoy wireless music on your 'Typhoon' Speaker, make sure you are connected to a Bluetooth enabled device.
- Once connected, press PLAY button on your Bluetooth device.
- After playback starts, you can control music with your connected device or the buttons on the speaker.
- Press the NEXT button to skip to the next track, press the PREVIOUS button to play previous track, press and hold the NEXT button to increase the volume or press the PREVIOUS button to decrease the volume

## Auxiliary Line- input (AUX)

- Use the supplied Aux cable to connect to the playback device's line output, connect the other end of the audio cable to the AUX input of the speaker.
- While using an external device, all functions will be controlled by the external device except for PLAY/PAUSE button.
- **"The speaker is NOT waterproof when using the AUX function because the cover is opened while charging the battery and using the AUX function.**

## Environmentally Friendly Disposal:

Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities. Contact your local government for information regarding the collection systems available. If electrical appliances are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health and well being.
